

High-bandwidth demand (WiFi 7, 5G, VR, IoT)
faces limits in performance and bandwidth?

Your Challenges

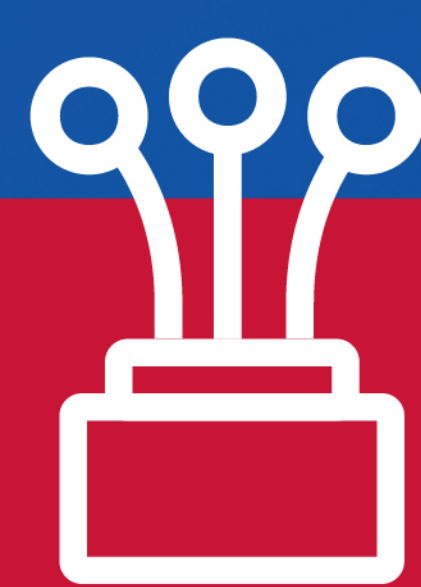

Growing network demands
requires constant rewiring,
causing excessive time and labor costs?

Our Innovation

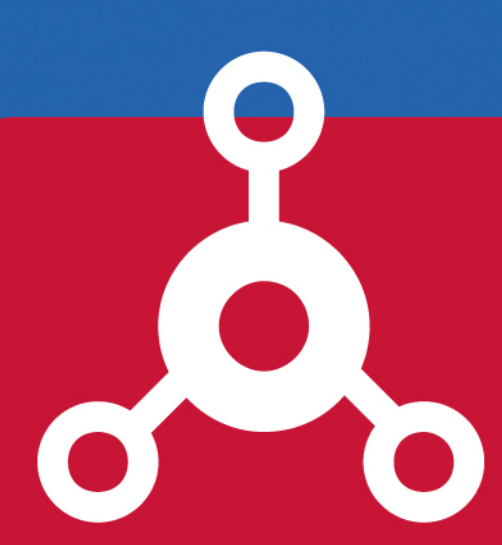

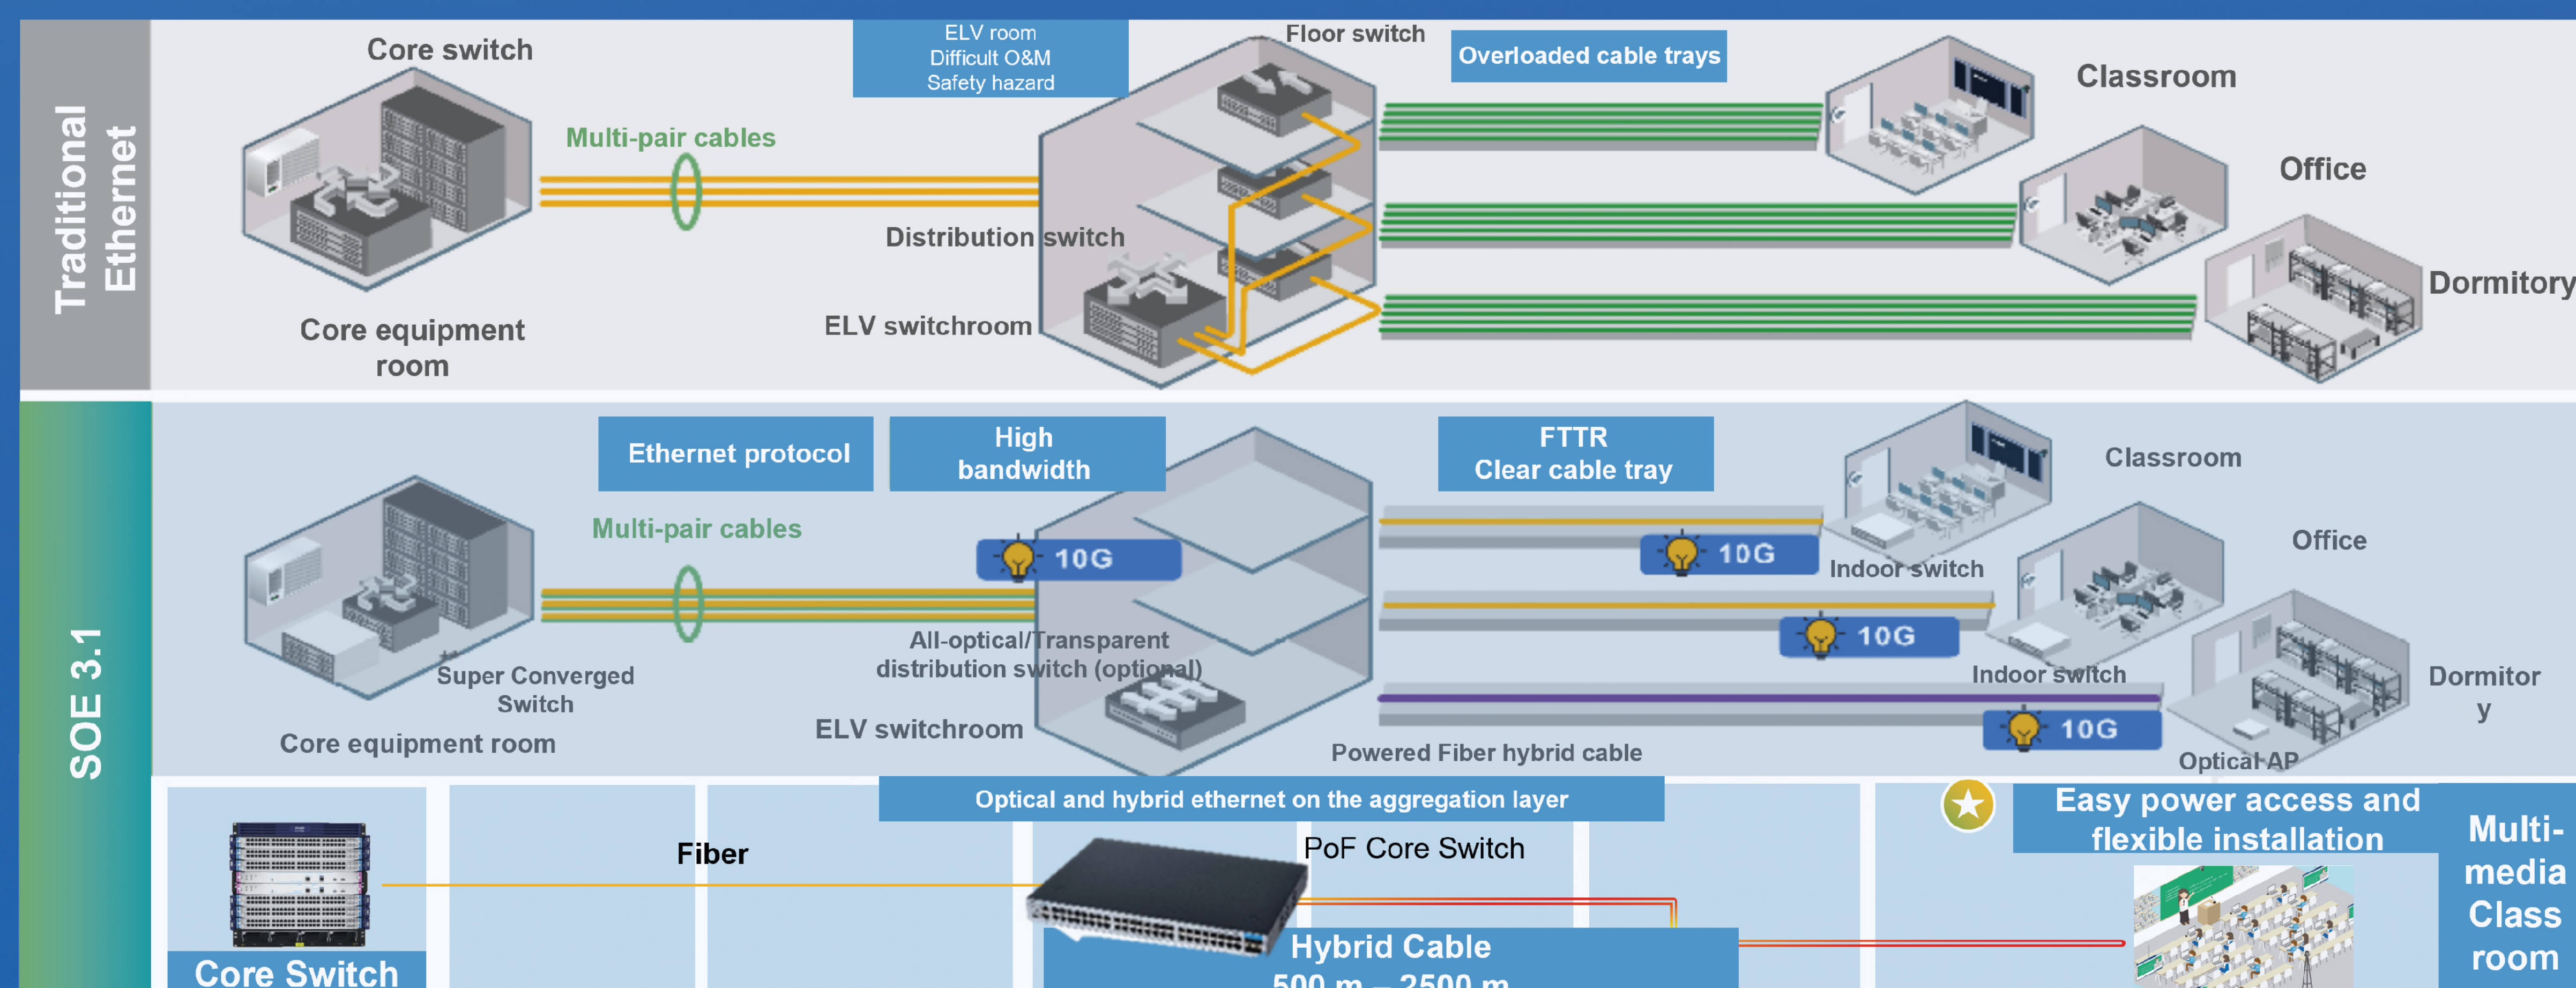

Simplified Optical Ethernet Solution

Next-Gen

All-Optical Ethernet Network Evolution

**No Optical Splitting, Zero Convergence,
SOE Indoor Bandwidth of 1 Gbps/10 Gbps**

Achieve flexible scalability

**with one-time deployment, ensuring network
upgrade readiness for the next 10 years**
